SIERRA COINS

INTRODUCTION AND GENERAL COMMENTS

After an introductory letter as complimentary and as thorough as Freeman's, it is difficult to avoid producing an anticlimax; however, I would like to discuss briefly the goals I have for Sierra Coins, and the format we will follow in the months ahead. The principal goal will continue to be that of providing a good selection of high quality coins at the lowest possible price. To accomplish this, the operations of the company have been reduced to the bare essentials. There is no staff other than myself, and I have placed as much of the operations as possible on a computer. The catalog is designed to list as many coins as possible, and still weigh less than one ounce, which means that we are not able to include photographs, or other space consuming frills.

Since I am the only staff, and will be in my office only during off hours, I have attached a recorder to the telephone for you to leave any messages or questions. In order to help keep the overhead costs at a minimum (which will keep our prices low), I would request your help in keeping the correspondence to a minimum; but if you need assistance, please don't hesitate to contact us.

The catalogs should be issued every six to eight weeks, and are meant to be representative in nature, rather than all-inclusive. If you have specific coins you are interested in, let us know, and we will send you a full listing of all such coins in our inventory. Also, should you wish to sell all or part of your collection, we will be happy to give you as generous a bid as possible.

Coins will be listed (as much as possible) in the same order, and by the same description as they are in the Krause and Mishler "STANDARD CATALOG OF WORLD COINS", even to the extent of identifying Bolivian Soles and Escudos as "Sueldos" and "Soles" respectively. Inevitably, there will be minor errors slipping into our catalog; please accept our apologies in advance, and let us know if you have any suggestions.

Colleagues and Collectors:

This catalog serves as an introduction to the new ownership and management of Sierra Coins. Beginning with its initial pricelist in May 1978, this company has fulfilled its purpose of offering a good selection of inexpensive Latin American coins at prices below the average market levels. During its first twenty months, Sierra issued nine pricelists under the management of Marney Albert; at that point, Marney and I became engaged and married. Subsequently, only one pricelist was published before our son Jason was born; and since his birth, Marney's interest in and responsibility for him have precluded the expenditure of time required to maintain Sierra Coins as an active business entity.

Our close friend, Phil Griffey, approached us in late 1980 with an offer to aquire Sierra; and, early this year, Marney decided that she would never have adequate time to fully manage it again and, therefore, a sale was negotiated. Under the new arrangement, Phil will be the owner/operator of this mail-order only business. Marney will work with Phil as a consultant in maintaining the mailing list, and I will either perform or double-check all grading and pricing.

Phil Griffey is a gentleman, an intellectual by nature, and a damned good banker (which will remain his vocation, with Sierra Coins being more of an avocation). His interest in history and appreciation of hard money as an economic function attracted him to coins. He has the potential to be a "true numismatist", and his acquisition of Sierra is intended to give him access to more types of material than he would be exposed to as a collector. Phil has not entered this business to support his family; I feel that his integrity, fairness, and moderate prices will be evident at all times. Do give him a chance to work with you; I will be available to give you advice and comments about Phil's offerings at any time -- feel free to contact me directly, or via his address. And do remember that the grading is done by me personally, which guarantees your probable satisfaction.

Numismatically Yours, Freeman Craig Jr.

TERMS OF SALE

1. All coins are guaranteed to be genuine.
2. Any coin may be returned for credit within 14 days, provided the privilege is not abused.
3. Coins will be graded by our traditional, conservative standards, rather than the inflated "commercial" standards so prevalent today; so you should consider this when comparing prices. Coins graded VF or higher will have individual flaws noted; coins graded less than VF may have one or more small flaws which will be taken into consideration when the grade is established, but may not be mentioned separately.
4. Unless you have established a credit line with us, please send payment for the coins ordered with your order. Payment is to be made in U.S. funds, drawn on U.S. banks. If you wish shipment to be made within ten days, please send a cashier's check or certified check.
5. Postage to U.S. addresses will be paid by us on any order of over $100.00; orders for less than $100.00, or orders mailed to foreign addresses, will be sent by the most appropriate method to ensure a prompt and safe arrival, and the buyer will be billed accordingly.
6. Discounts of 10% on minors, and 5% on crowns will be given on orders of over $100.00, when the order is accompanied by payment.
7. The minimum order accepted will be $25.00.
8. Layaway privileges are available on orders of over $100.00, with 25% down and the balance in ninety days.
9. Buyers may designate alternate coins, which will automatically receive the standard discounts shown above, regardless of order size.
10. Orders will be filled on a first come basis; those customers with established credit lines may phone in orders.
11. Telephone confirmations will be made, if requested, within 24 hours of receipt for an additional fee of $5.00.
12. Those customers who wish, may apply for credit on the enclosed form. No interest will be charged if the account is paid within 30 days from shipment; thereafter, interest of 1.5% per month will accrue from the date of shipment, prorated on a daily basis.
